

NEW: TEXT MESSAGING IN THE PREMIER AGENT APP!

Now you can communicate via text message with the Premier Agent App and Inbox. Streamline communication by keeping all of your client text messages in one place.

HOW IT WORKS

- **When you receive a new lead in the Premier Agent App** and click to reply via SMS, you'll be given the option to send via the Premier Agent App.
- When you reply, all of your text messages with that client going forward **will be threaded within the Premier Agent App and inbox.**
- **You can also start a new text chain** with a client directly from the Premier Agent App or Inbox. Simply select a contact from your contact list or create a new message from your Inbox.
